

# **SCHOOL CLOSURE LEARNING PLAN**

## **MARCH 2020**

Dear Parents

We are fully anticipating closure at some point and are guided by Departmental advice.

Should this be the case, it would be very important that learning continues for our children. Please see information below:

Any closure messages will be sent out by the St Clare's Abbey Primary School 'app' in the first instance and notification will also be on the website [www.stclaresabbeyps.com](http://www.stclaresabbeyps.com)

In the event school has to close, remember to set aside time each day for learning. Teachers will try their best to ensure access to high quality learning materials via the following:

### **Use of See-Saw**

Pupils will be able to access school work through the See-Saw 'app'. Teachers will be providing regular updates of tasks to be completed.

### **Nessy / Lexia Users (Specific Children Only)**

Pupils are encouraged to work at home at the level that they are currently using.

### **Mathletics**

Pupils will locate activities related to the area of maths outlined by the Teacher on See-Saw for that week. These activities will be the priority but additional Mathletics activities of pupil choice may also be completed.

### **C2K Newsdesk (P3 – P7)**

Pupils will be expected to use this valuable resource. Teachers will be able to monitor pupil activity. This is an amazing resource which will offer hours and hours of learning opportunity.

### **Daily Reading**

Pupils in Primary 1, 2, 3 and some P4 can access books on Bug Club. Teachers will ensure that ample suitable titles are allocated.

All children should be members of our local library. Please join as soon as possible as e-books can then be accessed on 'Libby' and 'Overdrive' apps.

### **Transfer Revision**

Primary 6 Teachers will upload tests and guidance notes on 'One Note' so that pupils will continue with their revision.

GL preparation work, above and beyond other school work, will be sent by Teachers.

**Please check your child has access to the above 'apps'/on line learning programmes by testing their username and password (copy will be provided on See-Saw). Please advise the teacher if new log in / password details are required.**
