

I know what is right and wrong
and why.

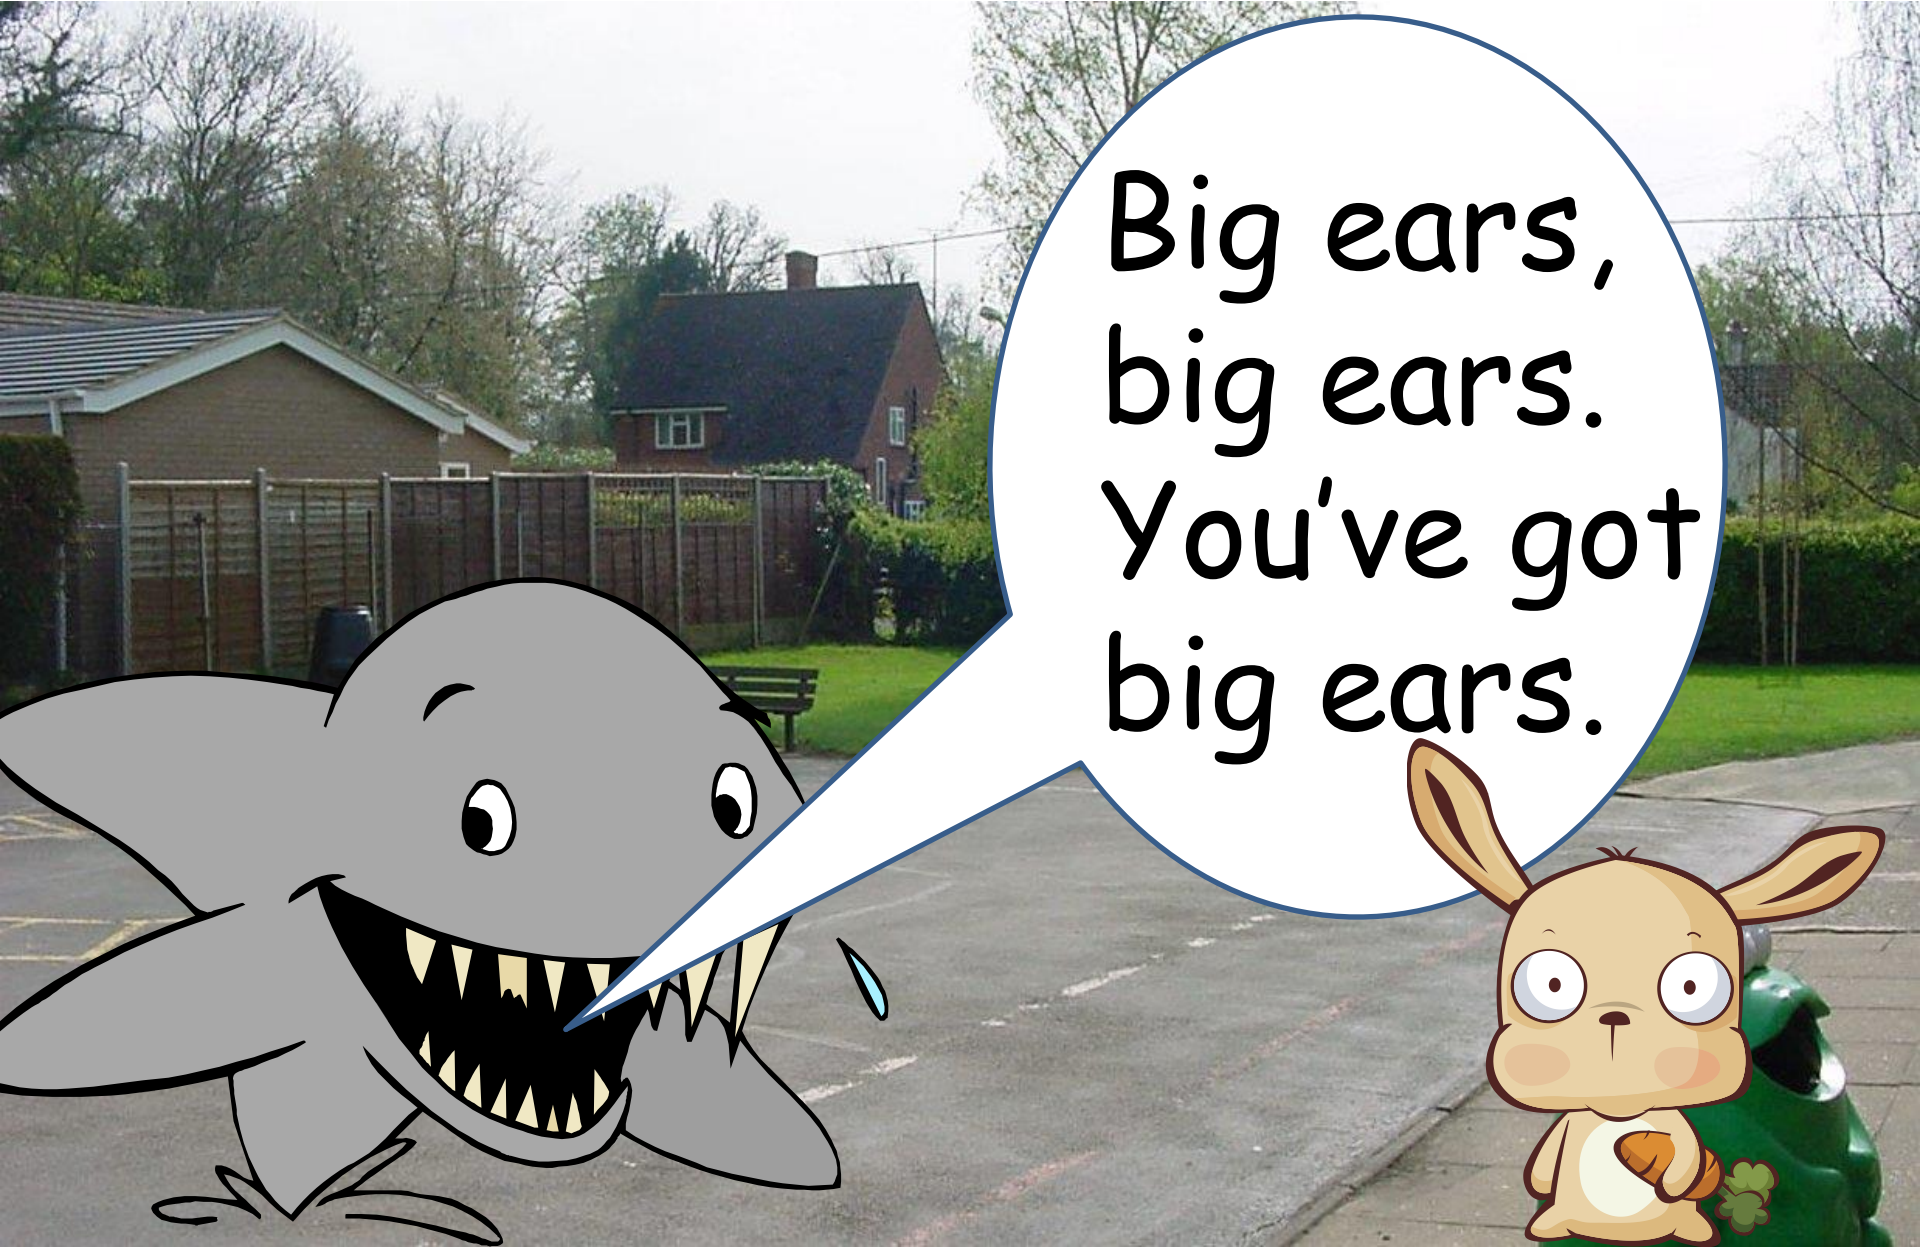

Listen to the story and say
why the animals behaviour is
wrong.

How could you help ?

Snappy shark was playing in the playground at school. He saw two animals in his class, Robbie rabbit and Henry hedgehog. They were playing catch.

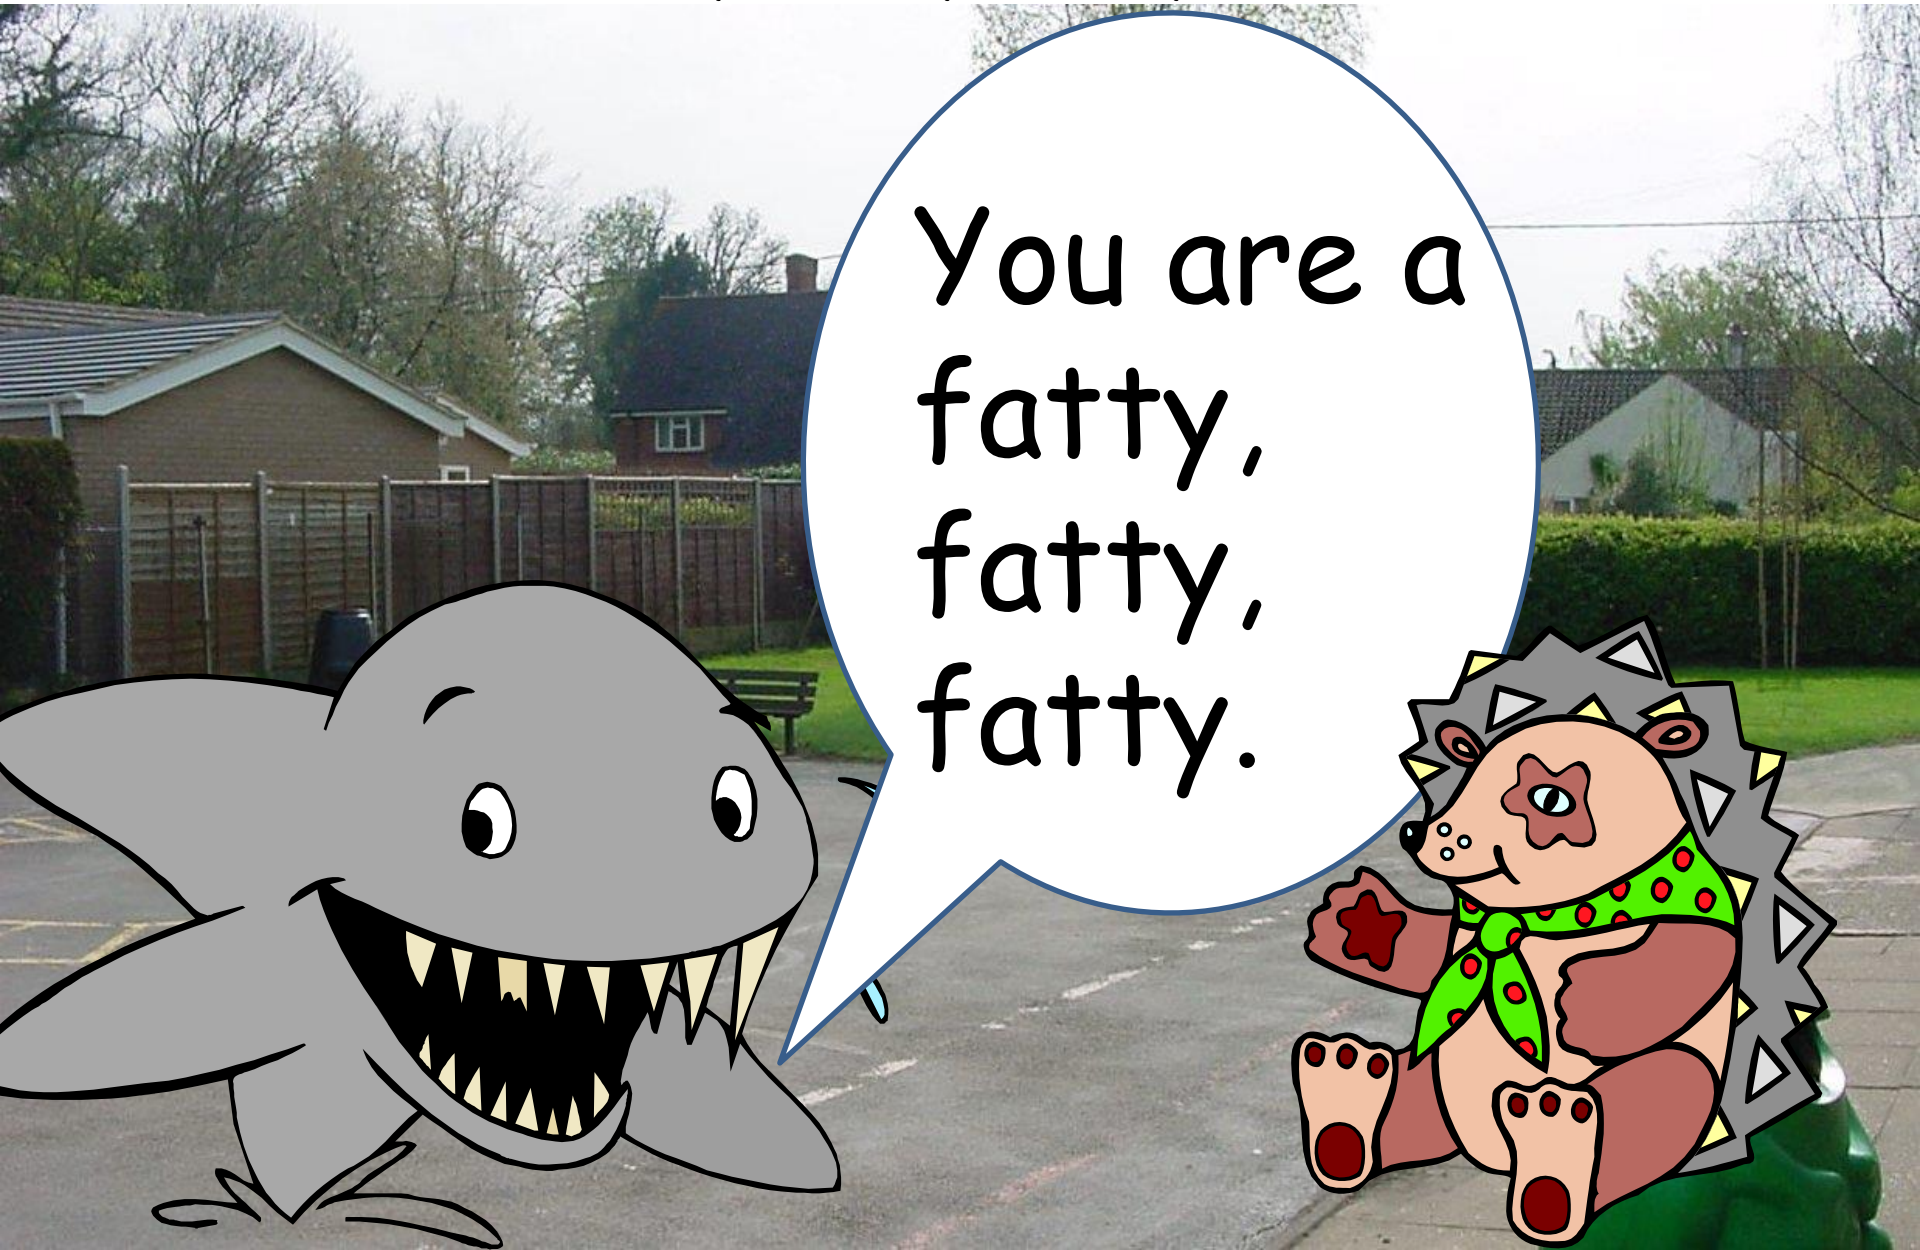

Snappy shark ran to Robbie rabbit and said, 'BIG EARS, BIG EARS. You've got BIG EARS.'

Big ears,
big ears.
You've got
big ears.

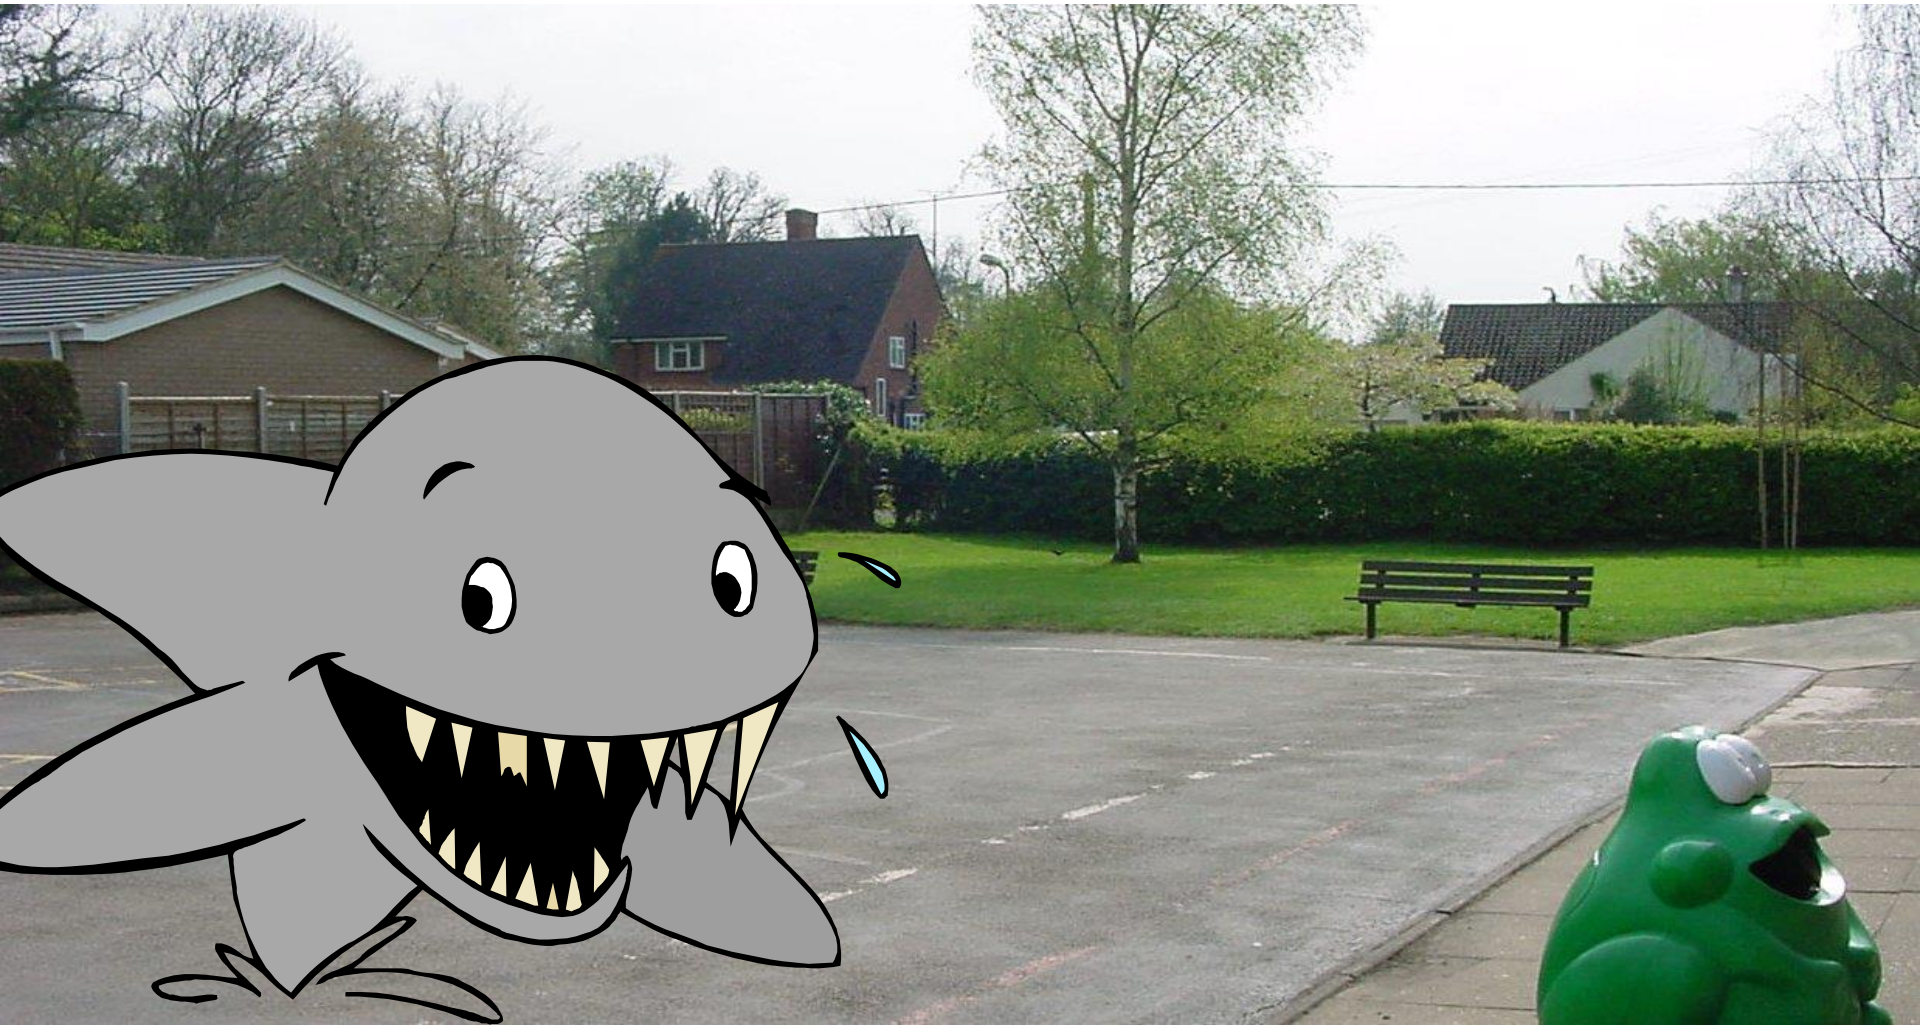

Snappy shark went off to find Henry hedgehog and said, 'You are a fatty, fatty, fatty.'

Robbie rabbit and Henry hedgehog began to cry.
They felt very sad and unhappy inside, really
miserable. Their feelings were hurt.

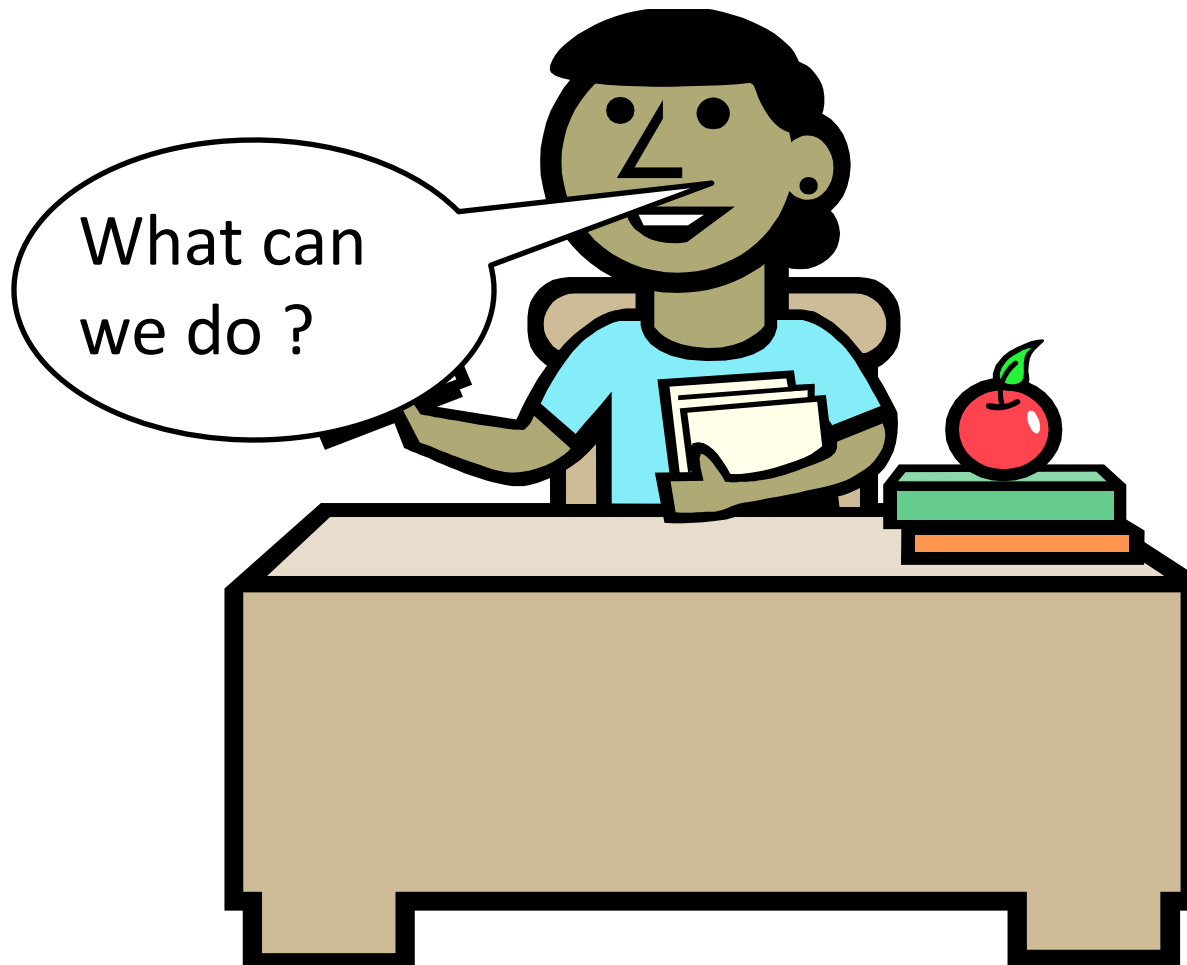

The next day, at playtime, Snappy shark called Henry hedgehog and Robbie rabbit hurtful names again. Henry hedgehog and Robbie rabbit felt sad.

This carried on the next day too, and the day after that, until Henry hedgehog got so sad and upset that he told his teacher.

The teacher asked all the animals in the class if they had any ideas about what they could do about what had been happening at playtime.

Does anyone know what is happening to Robbie and Henry ?

What should the animals do ?

What should the teacher do ?

Who do you think were being nasty and unkind in the story?'

How could she have got help if she was frightened?

What could Snappy shark have said to Squeak mouse if she didn't want to do these unkind things?

'If you had been watching, what do you think you could have done to help?
